JOHN DEERE

ARTICULATION JOINT SPECIAL

Loose or worn articulation joints can cause erratic steering response, deteriorated ride quality and make the machine difficult to control when roading. Count on West Side to get your machine back in shape!

West Side's **Articulation Joint Special** includes parts and labor to replace the upper and lower pins, bushings, spacers and shims needed to bring your articulation joints back to new specifications.

The **Articulation Joint Special** pricing is for in-shop services at any of West Side's 11 locations. Line bore and machining services are additional (if necessary). Applicable taxes are additional.

OFFER EXPIRES APRIL 1, 2022. Call for pricing on other models.

444, 544 and 624 H, J & K Series

\$3750 00

644 and 724 H, J & K Series

\$3950 00

NEED TO ORDER PARTS? MAKE IT EASY.

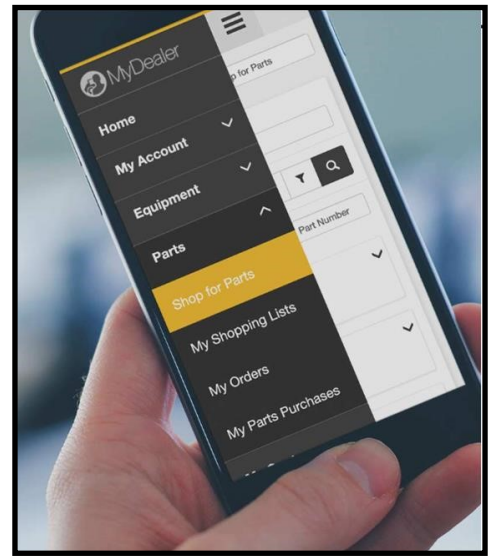

Easier than ever to do business your way.

Try out WestSideConnect, our free West Side Tractor online parts ordering portal, designed for our customers to work with West Side online for increased convenience and visibility. WestSideConnect is mobile friendly so you can access information and do business online from anywhere, at any time.

With WestSideConnect, you can look up John Deere parts. Parts ordering is integrated with JDPC's parts catalog for easy use. You can also view inventory in stock at each branch. Once an order is placed, easily view order status and choose from multiple shipping or branch pick up options.

In WestSideConnect, customers can view and print any invoice from West Side. Search by invoice number, PO#, invoice date, and more. Need to check on a status? You can tell which invoices are open and closed. With WestSideConnect, you also have visibility to units on rent from West Side, machine location and invoice history.

To request access to WestSideConnect, visit www.westsidettractorsales.com and click on 'WestSideConnect Customer Portal' in the top right corner. Once you fill out the form, a West Side representative will be in touch to get you started.
